DETAILED ACTION

Drawings

1. The drawings were received on Aug. 15, 2005. These drawings are acceptable.

Terminal Disclaimer

2. The terminal disclaimer filed on Aug. 15, 2005, disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of Application No. 10/664,209 (U.S. Patent Appl. Pub. No. 2004/0097081) has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

3. Claims 1-25 are allowed.
4. The following is an examiner's statement of reasons for allowance for claims 1 and 17: the prior art fails to teach or suggest removing the third conductive film by use of said conductive pattern layer as a mask and thus forming anchor portions where said third conductive film is depressed further inside than said conductive pattern layer. The closest prior art, Yagi et al. (U.S. Patent No. 6,133,070), discloses a method of manufacturing circuit devices, comprising: preparing a laminated plate by laminating a thin first conductive film (140) and a thick second conductive (120) film via a third conductive film (110A) (Figure 6K; column 40, lines 7-9, lines 33-38); forming a fine conductive pattern layer by etching said first conductive film (110A) into a desirable

pattern (110) (Figure 6J; column 20, lines 10-16). However, there is no motivation or suggestion of removing the third conductive film by use of said conductive pattern layer as a mask and thus forming anchor portions where said third conductive film is depressed further inside than said conductive pattern layer.

5. The following is an examiner's statement of reasons for allowance for claim 25: the prior art fails to teach or suggest that portions of the fine conductive pattern layer extend beyond corresponding portions of the conductive film pattern to form anchor portions between adjacent portions of the conductive film pattern.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric B. Chen whose telephone number is (571) 272-2947. The examiner can normally be reached on Monday through Friday, 8AM to 4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nadine G. Norton can be reached on (571) 272-1465. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
